Experience

Associate Software Developer Intern July 2025 – Present
PTC Software *Pune, Maharashtra*

- Contributing to the development of a large-scale Java-based installer for PTC Windchill, focusing on backend automation and build optimization.
- Developed a Java based log parser to extract key insights from millions of lines, reducing manual analysis time by 90 %.
- Utilized multithreading with concurrent task scheduling to execute sub-targets of sub-installers in parallel, reducing deployment time by up to 40 %.
- Designed and maintained Ant build scripts to streamline and automate complex build processes within the Java codebase
- Designed and implemented a PKI-based secure installer verification system with SHA-256/RSA signing and validating to prevent tempering in enterprise software distribution.

Full stack Developer Intern Certificate July. 2024 – July 2025
Matrix Innovation *Remote*

- Delivered 10+ production-ready features across Amorr (Dating App), Apna Consultant (FinTech), and IRL Social (Social Media).
- Built responsive UIs with TypeScript, Tailwind CSS, MUI, improving user experience scores.
- Integrated Socket.IO real-time chat, reducing latency and supporting 1,000+ concurrent users.
- Built and deployed Restful APIs with Node js/Express js, integrating authentication, payments and media.

Projects

IRL Social - Github | *React native, Nodejs, expressjs, mongodb* July 2024 – Jan 2025

- Developed a cross-platform invite-only meetup app using React Native + Express.js, featuring participant monetization, OTP confirmations.
- Built an internal wallet system with balance management, transaction history, and withdrawal of money in wallet.
- Integrated real time chat system with backend.
- Implemented **cronjob** for withdrawal of money at scheduled cyclic time.

Hospital Management Sys- Github | *Springboot. Spring Data JPA, Spring Security* July 2024 – dec 2024

- Developed a HMS using Spring Boot to streamline **patient, doctor and appointment** management workflows.
- Implemented Spring Data JPA for **ORM**, integration with **relational DB &reducing boilerplate CRUD**.
- Secured application endpoints using Spring Security by implementing role-based **authentication** and **authorization**.

Technical Skills

Languages: Java, Javascript, SQL,XML,HTML/CSS
Frameworks: React-native, Express.js, Node.js, Next.js, Spring, SpringBoot, hibernate, JDBC
Developer Tools: Git, Github, VS Code, Visual Studio,Figma, IntelliJ,
Concepts: Data Structure and Algorithms (DSA), OOPs, DBMS, Operating System, Computer networks.

Education

Institute of Engineering and Technology, Devi Ahilya Vishwavidyalaya, Indore, Madhya Pradesh
Bachelor of Engineering in Computer Science *Sep 2022 – May 2026*

Cocurricular Activites and Achievements

- Solved 600+ DSA problems across LeetCode, Codechef, and GeeksforGeeks
- Achieved Winner award of code contest help by gdg acropolis indore
- Qualified internal Smart India hackathon 2 times.
- Organized multiple tech events in college as a gdsc event lead.
